

MAIT Values & Beliefs

At MAIT, we believe in building a strong, resilient, and globally competitive electronics and ICT hardware ecosystem for India. Our values guide every initiative, every dialogue, and every partnership we foster.

Integrity & Transparency - We act with fairness, openness, and responsibility in all our engagements

Collaboration & Inclusivity - We believe the strength of our industry lies in collective action and diversity of voices

Innovation & Growth - We encourage technology-led transformation to make India a global hub for electronics and ICT hardware

Policy Advocacy with Purpose - We champion industry-friendly policies that balance growth, sustainability, and national priorities

Sustainability & Responsibility - We are committed to green practices, circular economy, and creating long-term value for society

Empowering Members - We exist to amplify the voice of our members and enable their success in an evolving ecosystem

To strengthen these values, MAIT offers a one-of-its-kind **Member Portal**—a transparent, interactive, and real-time platform where members can access submissions, track advocacy efforts, stay updated on industry developments, and share inputs or feedback on the go.

MAIT Committees

"Where members' voices shape industry action"

MAIT's Committees are the driving force behind its industry engagement and policy advocacy. Led by elected Chairs and Co-Chairs, they provide a democratic platform where members voice their challenges, exchange insights, and build consensus-driven solutions. Highly active and result-oriented, the Committees enable collective action, strengthen industry representation, and ensure meaningful impact for members across the electronics, telecom & ICT hardware ecosystem. Our Committees span the following focus areas:

- IT Hardware & Components
- Telecom Hardware & Components
- Mobile Hardware & Components
- Standards & Compliance
- Environment
- Ease of Doing Business
- Exim & Taxation
- MSME & Startup
- Electronic Repairs Services Outsourcing
- Right to Repair Taskforce

MAIT Membership Benefits

MAIT is the apex body for India's electronics and ICT hardware sector, recognized by government and industry for shaping the IT hardware ecosystem.

Headquartered in New Delhi with global linkages, MAIT drives policy advocacy, market development, technology initiatives, and capacity-building programs.

Its work covers cloud, IPR, skill development, e-waste, Industry 4.0, IoT, smart cities, and standards. With members spanning manufacturers, EMS players, recyclers, solution providers, and IoT companies, MAIT is a dynamic platform advancing industry growth, transparent governance, and stronger collaboration with policymakers.

FORMATION OF MAIT

In 1982, the Society for Information Science (SIS) brought together information scientists, technologists, and industry leaders at a National Symposium on "Review of Manufacturing Programme for Information Processing Industry in India," held on 17–18 June in New Delhi, where members unanimously decided to form an association of IT manufacturers.

This was followed by a Round Table on "Information Industry in India" on 27 August, inaugurated by the then Minister for Information and Broadcasting, Shri Vasant Sathe. During the event, SIS President Shri D. N. Jetly emphasized the need for such a body, leading to the establishment of the Manufacturers' Association for Information Technology (MAIT) on 14 December 1982, with Mr. R. Bandopadhyay of the Department of Electronics as its first President.

Policy & Advocacy

- Direct engagement with Government on incentives, taxation, trade, compliance, and manufacturing policies.
- Single-window support for issue resolution and representation before regulators.
- Industry Committees & Task Forces to raise issues, exchange insights, and co-create solutions.

Knowledge & Insights

- Regular updates on government notifications and policy changes.
- Access to exclusive reports, surveys, benchmarking data, and whitepapers for strategic decision-making.

Networking & Collaboration

- High-level networking with ICT and electronics industry leaders.
- Business matchmaking for partnerships, joint ventures, and supply chain linkages.
- National & international trade delegations for exploring global market opportunities.

Events & Leadership Opportunities

- Invitations to summits, roundtables, workshops, and policy forums.
- Speaking opportunities at flagship industry events to showcase thought leadership.

Cybersecurity & Operations

- Access to cybersecurity frameworks, compliance guidance, and risk management strategies.
- Join the OT Working Group shaping India's OT security ecosystem.

Branding & Visibility

- Brand visibility through MAIT publications, events, and social media platforms.
- Co-branding opportunities at major industry events.
- Recognition & awards for innovation and leadership.

SME & Startup Empowerment

- Special programs for MSMEs on compliance, competitiveness, and growth.
- Startup mentoring and innovation support platforms.
- Ease of Doing Business initiatives to simplify compliance and operations.

Sustainability & ESG

- Compliance support for e-waste, battery waste, and environmental mandates.
- ESG strategy, carbon footprint assessments, and green manufacturing advisory.

Digital Member Services

- Exclusive digital portal offering real-time access to advocacy updates, submissions, knowledge resources, and interactive feedback.
